A front-end developer and web accessibility advocate with 4+ years of experience that is highly adept at working both independently and collaborating in a team to build accessible and responsive web interfaces.

WORK EXPERIENCE

Frontend Engineer
Outliant, US (Remote)   January 2023 - present
- Developed and implemented user-friendly and visually appealing interfaces, translating design mockups and wireframes into UI using HTML, CSS, JavaScript, Webflow, React, Next.js, AWS, Firebase.
- Ensured cross-browser and cross-device compatibility
- Collaborated with designers and backend developers to deliver fully immersive and functional websites and web apps
- Successfully deployed 2 projects (web apps) so far, resulting in a 200% increase in sales and interactions combined over the last 2 months.

Frontend Engineer   April 2021 - December, 2022
FStackDev, Abuja (Remote)
- Assisted in building and maintaining scalable, fully responsive and accessible websites/webapps for 20+ businesses and clients.
- Worked hand-in-hand with the back-end engineering team and design team in structuring and building websites/webapps to satisfy the needs of the client.
- Wrote automated tests using Jest, React testing library and Cypress ensuring 100% bug free shipping and deployment of production code.
- Collaborated with the backend team to integrate internal APIs and internal tooling applications.

Frontend Engineer (Contract)   August 2022 - October 2022
DellMarvis Smart Technologies Ltd. (Remote)
- I orchestrated, developed and launched the frontend infrastructure, design and functionality for DellMarvis' website using Nextjs, GSAP, Styled-Components, React-Leaflet and Formik.

Software Engineer   January 2020 - March 2021
NCPC (Nigerian Christian Pilgrims Commission), Abuja
- Developed a portal for pilgrimage application and interview scheduler that optimized pilgrimage applications and interview steps by over 50%.
- Implemented front-end technical solutions to meet project requirements.

Frontend Developer   July 2019 - December 2019
Zkyte Technologies, Abuja
- Collaborated with the design team to take client wireframes from conception to implementation.
- Worked in an Agile, collaborative space to receive design requirements, and test applications.
- Conducted research and assisted with new business scoping efforts, resulting in the acquisition of 7 new clients

Frontend Engineer (Intern)   March 2019 - July 2019
FStackDev
- Assisted in migrating legacy code to modern day standards.
- Assisted in removing bootstrap from company stack and moving to modern day css, thereby eliminating dead code and reducing bundle size by 20%.
